Definitions: **Record date** is the date that determines if a client is entitled to receive the dividend and/or capital gains. Accounts that own shares based on trade date positions (as of close of business) will be entitled to receive the dividend and/or capital gains distribution (i.e., if a client sells shares on the record date, he will not be entitled to the distribution on the amount of shares sold.) **Ex-date** is the date on which the fund's shares trade without the dividend and/or capital gains distributions. The fund's NAV is adjusted by the amount of the dividend and/or capital gains distributions, plus or minus any market fluctuations. Dividend reinvestments are calculated using the ex-date's NAV. **Reinvest date** is the date on which a fund pays a dividend and/or capital gain distributions, using that day's NAV to calculate the number of shares credited to a shareholder who reinvests dividends and/or capital gains.

The Merger Fund®, WCM Alternatives: Event-Driven Fund and WCM Alternatives: Credit Event Fund are distributed by Compass Distributors, LLC.
